

I felt compelled to stop viewing channel 13, in Asheville, NC months ago. When local groups in Asheville, NC attempted to address the issues with WLOS, they ceased local news coverage altogether & broadcast instead local news coverage from other states to punish us for our impertinence! I find Mark Hyman's commentaries to be repugnant to a point where even my father 's household has joined me in eliminating them from our viewing. Mark Hyman is corrupt and WLOS morally bankrupt. For this to continue any further shows a breakdown in our American system of fairness in providing for equality and appropriate control of the information being extended to us through the media. WLOS is Communistic in it's control and Mark Hyman is dispicable in his biased commentaries. Please rebuke WLOS and revoke the their license ASAP. thank you for your consideration.
